

Post-Vaccination Coverage

Chubb supports the Government's move to vaccinate the population. With the roll-out of the COVID-19 vaccination program in the country, Chubb is offering Post-Vaccination Coverage to cover insured from any untoward medical occurrence following a COVID-19 vaccination approved by the National Pharmaceutical Regulatory Agency.

Some companies are starting to view vaccinations as part of the measures to enhance workplace safety & health. The Post-Vaccination Coverage does not only act as an added layer of protection in the vaccination program, but also help building vaccine confidence and provide peace of mind to the insured.
